ASIAN AMERICAN YOUTH PROJECT YOUTH AMBASSADORS SCHOLARSHIP

Details:

The Asian American Youth Project (AAYP) is a youth community-based program supported by the non-profit organization China AIDs Fund, Inc. (CAF). Its mission is to encourage Asian American youth to speak out about their experiences growing up at the intersection of two cultures. The Youth Ambassadors Scholarship seeks to award Asian American youth who are committed to generating more dialogue on Asian American issues and can reflect on their experiences as Asian Americans in a meaningful way. Awardees will be chosen through an essay contest.

Website:

http://www.chinaaidsfund.org/?page_id=95

Application due in October:

DOSOMETHING.ORG SCHOLARSHIPS

Details

We hate paperwork at DoSomething.org. There are no applications or essays required to win a scholarship from us. If you are 25 years old or younger and live in the US or Canada (or are a citizen of either country, but living abroad), you are eligible for all of our scholarships. If you haven't chosen a college or university yet, we'll hold on to your money and there isn't really a time limit on that. Just complete a campaign, prove it with pics of you in action, and bam, you're entered to win!

Website:

U.S. SERVICE ACADEMY NOMINATIONS

Details:

Members of Congress are authorized by law to nominate candidates for appointment to four U.S. service academies. These schools are the U.S. Military Academy (USMA), West Point, NY; the U.S. Naval Academy (USNA), Annapolis, MD; the U.S. Air Force Academy (USAFA), Colorado Springs, CO; and the U.S. Merchant Marine Academy (USMMA), Kings Point, NY. These institutions provide college-age Americans with a tuition-free, four-year undergraduate education and prepare them to be officers of some of the U.S. uniformed services. Upon graduation, service academy graduates are commissioned as officers in the active or reserve components of the military or the merchant marine for a minimum of five years.

Website:

<https://fas.org/sgp/crs/misc/RL33213.pdf>

Contact Information:

Students who are juniors can apply through one of the New York Senator's offices (links below), or through the office of your local Congressperson.

<https://www.schumer.senate.gov/students/academy/>

<https://www.gillibrand.senate.gov/services/nominations/>

Members of Congress often sponsor informational nights in September and October—check with individual offices for possible dates and locations.

WASHINGTON CROSSING FOUNDATION SCHOLARSHIP

Details:

The Board of Trustees is pleased to announce the 48th annual National Washington Crossing Foundation Scholarship Awards for students completing twelfth grade (or final high school year) in 2017 who are planning careers in government service. Scholarship applicants must be citizens of the United States. Each interested student is invited to write a one-page essay stating why he or she plans a career in government service including any inspiration to be derived from the leadership of George Washington in his famous crossing of the Delaware. This essay must be accompanied by a recommendation from the high school principal or guidance counselor evaluating the student's achievements, along with transcripts, national testing scores, and other supporting information of the applicant's choice as described in the Official Rules.

Website:

<http://www.gwcf.org/SchlProgram.html>

COLUMBIA COLLEGE DOUBLE DISCOVERY CENTER

Details:

DDC accepts students who live and/or attend schools in Manhattan, and are low-income and/or first-generation college bound. *The Upward Bound Program* is full academic immersion and an extensive time commitment. The program accepts students in the 9th and 10th grades. UB students are on campus two days per week for tutorial assistance and on Saturday mornings for three academic enrichment courses. During the summer, students can apply for entry into the UB Summer Academy where they live on campus and take classes for four weeks. Talent Search has a more flexible schedule and is suggested for those who are heavily involved in extra curricular activities or outside programs. Tutorial sessions are optional and there are workshops for each academic class. In the summer, the Center offers opportunities for students to secure summer internships, and enroll in study abroad and outside programs.

CUNY FREE SUMMER PROGRAMS FOR HIGH SCHOOL STUDENTS

Details:

College Now is CUNY's largest collaborative program with the New York City secondary public school system. The program offers dual enrollment and college-readiness programs in more than 400 NYC high schools and enrolls over 20,000 students annually. In all, there are seventeen campus-based College Now programs which are overseen by a central office. Although the program varies from school to school and campus to campus, they are similar in terms of overall structure, implementation and goals. Questions about College Now may be directed to College Counselor **Elizabeth Hughes** at ehughes2@schools.nyc.gov or in Room 225 during 1st period.

College Focus:

College Focus prepares students to pass the CUNY assessment test in math and in reading and writing which will exempt them from remedial courses at CUNY and qualify the student for college credit courses in College Now. See website page for details: <http://collegenow.cuny.edu/college-focus-and-pre-college-courses/college-focus/>

SEO SCHOLARS

Details:

SEO Scholars is a free eight-year academic program that gets low-income public high school students to and through college—with a 90% college graduation rate. In high school, we offer intensive year-round academic preparation via a carefully-calibrated, rigorously-assessed course of supplemental education. Our Saturday, summer, and weekly after-school classes provide the equivalent of 2.5+ years of instruction in English and 1.5+ years of instruction in math. In college, we continue to support students through each of their four years, providing one-on-one academic, personal, and career exploration support. Must be in 9th grade to apply.

Website:

BLACK ROCK FOREST SUMMER SCIENCE CAMP

Details:

Black Rock Forest Consortium is a 501 (c) 3 not-for-profit organization with a mission of advancing scientific understanding of the natural world through research, education, and conservation programs. The Consortium maintains a 3,870-acre forest and a scientific field station in the Hudson Highlands, 60 miles north of New York City. Every summer, Black Rock Forest Consortium welcomes middle and high school students to Summer Science Camp to pursue authentic, week-long experiences in nature, working directly with scientists. The camp's focus is on understanding nature through scientific observation and investigation. Classes are developed and taught by subject experts from throughout the Consortium, providing an opportunity to explore college and career possibilities in the natural sciences while having fun at Black Rock Forest, in Cornwall, NY. Please note that Summer Science Camp 2016 is a DAY CAMP. While we are unable to provide lodging or supervision during non-camp hours, we invite interested families to contact us regarding arranging week-long visits to the area with a day camper.

THE WOOSTER GROUP SUMMER INSTITUTE

Details:

The Summer Institute is a free, three-week performance workshop for teenagers in the public school system, founded by Wooster Group member Kate Valk and Ariana Smart Truman. The workshop is organized around a selected text and sessions with guest artists in many aspects of performance (ranging from movement to writing to voice training to video techniques). Students are accepted as young as twelve, and are invited back every summer until they graduate from high school, at which time they may return as interns, and ultimately instructors or guest artists. The program culminates in three public performances for supporters, friends, and family.

STELLA ADLER STUDIO OF ACTING

Details:

The Teen Conservatory Program is based on the conviction that young actors, ages 14 to 17, can be trained with the same rigor and discipline as adults and are therefore acquainted not only with core elements of actor training but with the artistic, cultural and humanistic values that support a life in the theater.

Adler Youth Group is a free year-long training program for NYC high school students. Description here: <http://www.stellaadler.com/outreach/adler-youth-group/>

Summer Shakespeare is a five-week summer intensive. Twenty-four students are selected to train five days a week in voice, movement and scene study (50 hours of classes total). The program culminates with a production of an abbreviated Shakespeare play. Description here:

Email info@stellaadler.com or call 212-689-0087

SUMMER ARTS INSTITUTE

Details:

The **Summer Arts Institute** is a free Department of Education-sponsored summer arts program in July for **all** high school students, with instruction in music, dance, theater, photography, and more. It is held at Frank Sinatra High School for the Arts in Astoria, Queens. For 2017 information, see website to join audition mailing list.

Website:

<http://schools.nyc.gov/offices/teachlearn/arts/initiatives/sai.html>

TADA! PROGRAMS

Details:

Education at TADA! includes a wide range of musical theater classes and camps that actively engage students from all racial, economic, and social backgrounds. TADA! runs weekly in-school residencies, after-school programs, and school-break camps both on- and off-site giving kids valuable opportunities to learn and explore the arts using original songs from TADA! shows and age appropriate selections from Broadway/Off-Broadway productions.

Email education@tadatheater.com or call (212) 252-1619, extension 4.

TEEN ARTS CONNECTION

Details:

Teen Arts Connection offers many programs to help make the arts affordable for young people. High 5 makes \$5 tickets available to hundreds of New York art events, including dance, music, theater, film, and museums. The Student Art program (SAP) is an ongoing exhibition program with 8 exhibition opportunities a year for NYC public school students in 6th-12th grade. Teens Curate Teens (TCT) brings together high school artists and curators to produce an art exhibition each spring. Teen Reviewers and Critics Program (TraC) is a free 10-week afterschool program for high school students to explore the arts in NYC. The Journal of Art and Reviews (JAR) is a blog which features creative content by young people participating in ArtsConnection's teen programs. More information on all programs available on the website.

<https://teens.artsconnection.org/apply/>

Contact:

<https://teens.artsconnection.org/contact/>

TEEN REVIEWERS AND CRITICS (TRAC)

Details:

TRaC is a free after-school opportunity for teens to explore the arts in New York City. Each fall and spring, participants spend ten weeks attending performances and exhibitions all over the city, meeting artists, learning the art of discussion and critical writing, publishing reviews, and more.

Website:

<https://artsconnection.org/teen-programs/>

Contact Information:

Email TRaC Program Manager Keonna Hendrick at hendrickk@artsconnection.com or call her at (212) 453-9485.

URBANWORD NYC

Details

Urban Word NYC is at the forefront of the youth literary arts movement in the United States. Founded in 1999, UW presents free literary arts education and youth development programs in the areas of creative writing, spoken word, playwriting, college prep, literature and hip-hop. Many different programs and workshops offered.

THE WOOSTER GROUP SUMMER INSTITUTE

Details:

The Summer Institute is a free, three-week performance workshop for teenagers in the public school system, founded by Wooster Group member Kate Valk and Ariana Smart Truman. The workshop is organized around a selected text and sessions with guest artists in many aspects of performance (ranging from movement to writing to voice training to video techniques). Students are accepted as young as twelve, and are invited back every summer until they graduate from high school, at which time they may return as interns, and ultimately instructors or guest artists. The program culminates in three public performances for supporters, friends, and family.

RESEARCH/STEM

1000 GIRLS 1000 FUTURES MENTOR PROGRAM

Details:

You know you're interested in following some kind of STEM (science, tech, engineering, math) career. But now you don't know what your next steps are. As a mentee, you will have access to not only your own, hand-picked STEM mentor, who is a successful woman currently working in a STEM field, but an entire network of mentors and mentees just like you all over the world, all working toward different STEM disciplines. You will develop skills in leadership, communication, and critical thinking while also learning the different steps it takes to apply to college and university.

AMERICAN MUSEUM OF NATURAL HISTORY PROGRAMS

Details:

Every year, the After School Program (ASP) offers courses to New York City high school students interested in the sciences. There are courses in anthropology, astrophysics, earth science, genetics, biodiversity, and more. Each course makes use of the museum's unique resources through hall visits, lab and collections tours, talks and lectures by scientists, and hands-on activities. Free one week Summer Science Institute also available in August. Sign up for application notification on website. After taking 3 after school research courses, students can also sign up for the summer Science Research Mentoring Program (SRMP).

ANDOVER PHILLIPS ACADEMY (MS)2 SUMMER PROGRAM

Details:

The (MS)² program was founded in 1977 to address the compelling need to cultivate the mathematical and scientific abilities of economically disadvantaged African American, Hispanic/Latino, and Native American high school students from targeted cities and communities across the United States. In a residential setting on the historic Phillips Academy campus, the three-summer program challenges students intellectually and exposes them to peers and educators with diverse backgrounds, life experiences, and aspirations. Applicants must be in 9th grade.

BARNARD COLLEGE SATURDAY SCIENCE SEMINARS (S-CUBED)

Details:

The S-Cubed program brings young women in the 11th grade with strong academic ability and interest in science and mathematics to Barnard over the course of five Saturdays in January, February and March. These capable young women are nominated for the program by science teachers in New York City high schools. Admission to the program is highly selective and by nomination limited so that students truly gain from the interactive experience of a small class.

BLACK ROCK FOREST SUMMER SCIENCE CAMP

Details:

Black Rock Forest Consortium is a 501 (c) 3 not-for-profit organization with a mission of advancing scientific understanding of the natural world through research, education, and conservation programs. The Consortium maintains a 3,870-acre forest and a scientific field station in the Hudson Highlands, 60 miles north of New York City. Every summer, Black Rock Forest Consortium welcomes middle and high school students to Summer Science Camp to pursue authentic, week-long experiences in nature, working directly with scientists. The camp's focus is on understanding nature through scientific observation and investigation. Classes are developed and taught by subject experts from throughout the Consortium, providing an opportunity to explore college and career possibilities in the natural sciences while having fun at Black Rock Forest, in Cornwall, NY. Please note that Summer Science Camp 2016 is a DAY CAMP. While we are unable to provide lodging or supervision during non-camp hours, we invite interested families to contact us regarding arranging week-long visits to the area with a day camper.

COLAB AT LA MAMA

Details

CultureHub is a center for art and technology that connects communities around the world. Immerse yourself in art and technology at CoLab, CultureHub's free summer intensive workshops for young artists ages 15–20. At CoLab young artists will connect, design, and create original projects in collaboration with professional artists and creative technologists. Working with their peers, participants will build towards an original piece to share with friends and family at the end of the workshop. Over the course of nine days, students will explore interdisciplinary art forms, themes, and techniques in fun, hands-on modules.

Website:

<http://www.culturehub.org/colab/>

Contact Information:

Email colab@culturehub.org or call 917 463 3917

COLUMBIA UNIVERSITY SCIENCE HONORS PROGRAM

Details:

The Columbia University Science Honors Program (SHP) is a highly selective program for high school students who have a strong interest in the sciences and mathematics. Courses are primarily in the physical, chemical, biological, behavioral, and computing sciences. Instructors are scientists and mathematicians who are actively engaged in research at the university. Classes will be held on the Columbia University Morningside Campus.

Eligibility:

This program is open to students in the tenth to twelfth grades.

Website:

<http://www.columbia.edu/cu/shp/info.html>

Application:

<http://www.columbia.edu/cu/shp/apply.html>

Deadline:

Usually in early March.

COOPER UNION SUMMER STEM PROGRAM

Details:

The Summer STEM Program is a six-week intensive in July and August that immerses current high school sophomores and juniors in hands-on engineering design and problem-solving, thereby placing them on the right track for careers in technological innovation. Projects range broadly and include robotics, digital fabrication, computer programming and app development, biomedical and genetic engineering, improved urban infrastructure, and even racecar design. Students also attend workshops on oral presentation skills, technical writing, career counseling, and college admissions. They are given access to Cooper Union’s library resources, computer facilities, and laboratories to perform their research, design, analysis, and prototyping. Financial aid available

Website:

<http://cooper.edu/engineering/summer-stem>

Application:

Will be posted in early January.

Deadline:

Beginning of March

CORNELL ENGINEERING EXPERIENCE AT THE CORNELL UNIVERSITY SCHOOL OF CONTINUING EDUCATION AND SUMMER SESSIONS

Details:

Students will be able to investigate fields from computer-aided design to bioengineering and material science. They will also discuss and partake in the latest research and technology with faculty members. Along the way, students will discover the inner works of Cornell University’s most technologically advanced facilities. Participants will also gain hands-on experience in labs, join group design projects, and cultivate the study skills necessary to excel in engineering.

Eligibility:

<https://www.sce.cornell.edu/sc/programs/eligibility.php>

Website:

<https://www.sce.cornell.edu/sc/programs/index.php#>

Application:

Join announcement list on website to be notified of application availability.

Deadline:

https://www.sce.cornell.edu/sc/upcoming_dates.php

CUNY HIRES PROGRAM

Details:

HIRES is the High School Initiative in Remote Sensing of the Earth Systems Science and Technology. HIRES is a program within the CREST CUNY Institute which offers high school students an opportunity to work closely with scientists in the field and in labs, collect and analyze data, present at conferences, and more. Its aim is to provide NYC high school student research experience especially in STEM.

<http://crest.cuny.edu/weathercamp/>

Application:

<http://crest.cuny.edu/weathercamp/apply-now/>

DEPARTMENT OF NAVY SCIENCE AND ENGINEERING APPRENTICESHIP PROGRAM (SEAP)

Details:

The Science and Engineering Apprenticeship Program (SEAP) provides an opportunity for students to participate in research at a Department of Navy (DoN) laboratory during the summer. The goals of SEAP are to encourage participating students to pursue science and engineering careers, to further their education via mentoring by laboratory personnel and their participation in research, and to make them aware of DoN research and technology efforts, which can lead to employment within the DoN. Closest participating labs are in NJ, CT, and PA.

Website:

<http://seap.asee.org/>

Application: due in November

<https://seap.asee.org/apply>

Contact Information:

202-649-3833 or email seap@asee.org

DNA LEARNING CENTER SUMMER CAMPS

Details:

The DNA Learning Center (DNALC) of Cold Spring Harbor Laboratory (CSHL) is the world's first science center devoted entirely to genetics education. Each summer, we offer fun and challenging camps for science enthusiasts entering 6th–12th grade at four locations: the Dolan DNALC in Cold Spring Harbor; DNALC *West* in Lake Success; *Harlem DNA Lab* in New York City, and on the Cold Spring Harbor Laboratory campus. Guided by experienced instructors, students use sophisticated laboratory and computer equipment to perform experiments several grade levels ahead of their peers.

MIT CENTER FOR EXCELLENCE IN EDUCATION RESEARCH SCIENCE INSTITUTE

Details:

Since 1996, MIT has hosted a six-week summer program for high school students who are chosen for their superior achievement in math, science and engineering. Seventy-five high school juniors are selected by the Research Science Institute (RSI) based in Washington DC. RSI is part of the Center for Excellence in Education, a federally and privately funded nonprofit organization. Check website for application availability.

Contact Information:

Email maite@cee.org for more information.

MIT OUTREACH PROGRAMS

Details:

MIT's Office of Engineering Outreach Programs is offering three different free programs for high school students interested in careers in science and engineering. Minority Introduction to Engineering and Science (MITES) is a rigorous six-week residential academic enrichment program for promising high school seniors – many of whom come from underrepresented or underserved communities – who have a strong academic record and are interested in studying and exploring careers in science and engineering. E2 is a one-week science and engineering program for rising high school seniors. Mostec is a six-month, online science and engineering program for rising high school seniors.

<http://www.nasa.gov/audience/forstudents/9-12/index.html>

<http://www.nasa.gov/audience/forstudents/current-opps-index.html>

NATIONAL HUMAN GENOME RESEARCH INSTITUTE SUMMER INTERNSHIP

Details:

The Summer Internship Program in Biomedical Research provides students at all levels the opportunity to perform biomedical research alongside some of the world's most accomplished scientists. The program immerses students in a unique environment devoted to better-understanding the underlying causes of human genetic disease, leading to the development of novel methods for the detection, prevention and treatment of heritable and genetic disorders.

Website:

<https://www.genome.gov/10000218/>

Application:

Check website for availability.

Deadline:

Usually in early March.

Contact:

E-mail: nhgritraining@mail.nih.gov

NEW YORK CITY RESEARCH INITIATIVE

Details:

Summer Research Institute Component - Teams of high school and undergraduate students and faculty work along side graduate students and the principal investigators (lead scientists) of NASA-funded research projects at universities within a 50-mile radius of New York City (NY, NJ and CT); or at the NASA Goddard Institute for Space Studies (GISS) under the mentorship of a GISS scientist.

Academic Year Component - NYCRI high school and college faculty formulate and implement NASA research based learning units in existing science, technology, engineering and mathematics (STEM) courses. NASA, NSF and university partners offer content, research and teacher preparation/enhancement seminars.

PERRY INITIATIVE OUTREACH PROGRAM

Details:

The Perry Initiative is committed to inspiring young women to be leaders in the fields of Orthopedic Surgery and Engineering. The Perry Outreach Program is a free Saturday program for self-identified female high school students. Using real tools and bone models, girls participate in creative problem-solving and learn the orthopedic implant design process. Participants will rotate through six mock surgical scenarios and attend three lectures on career decisions given by local women orthopedic surgeons and engineers. Local medical and engineering students act as hands-on activity instructors. The next New York City presentation is January 21, 2017 at NYU.

THE ROCKEFELLER UNIVERSITY SUMMER SCIENCE RESEARCH PROGRAM

Details:

The Summer Science Research Program is for students age 16+ interested in careers in medicine, science, clinical research, teaching, mathematics, and engineering. The program runs for seven weeks from June to August. Apprenticed to a mentor, students will learn the content, process, culture and ethos of modern scientific research through total immersion in the process of scientific inquiry. The program will provide you with a practical, laboratory experience working with your mentor to gain insight into how and why scientific research is done.

Website:

http://www.rockefeller.edu/outreach/summer_science

Application: The deadline is early January.

RUTGERS YOUNG SCHOLARS PROGRAM IN DISCRETE MATHEMATICS

Details:

The Rutgers Young Scholars Program in Discrete Mathematics is a summer program for mathematically talented high school students. It provides a mathematically rich environment to high school students interested in mathematics, and is designed to encourage them to consider careers in the mathematical sciences. Selected students participate in an intensive four-week residential academic program that provides a challenging introduction to discrete mathematics -- a new and growing area of the mathematical sciences with many applications on the cutting edge of modern research.

STEVENS INSTITUTE OF TECHNOLOGY PRE-COLLEGE PROGRAMS

Details:

Gain hands-on experience with cutting-edge topics in engineering, computer science, robotics, medicine, biotechnology and more. Some programs require prior subject knowledge and a desire to dig deep, while others require only curiosity and a willingness to explore! In every program, you'll work with pioneering faculty members, visit companies that are leading innovation and complete a creative final project you'll never forget.

Eligibility:

The BUILD program is open to rising freshmen and sophomores, while all the other programs are open to rising juniors and seniors.

Website:

<https://www.stevens.edu/admissions/pre-college-programs>

Application:

<https://undergradadmissions.stevens.edu/apply/>

Deadline: Usually in mid-March.

STONY BROOK UNIVERSITY ON LONG ISLAND GEOPREP SUMMER CAMP

Details:

GeoPREP residential summer camp offers a research experience for high needs high school students underrepresented in the sciences who have completed New York State Regents Earth Science. Mid July-mid August.

URBAN BARCODE PROJECT

Details:

The *UBP* is the first large-scale effort to engage high school students using DNA technology to explore biodiversity in New York City. The program is open to high school students in the New York Metropolitan area who are enrolled in grades 9–12. Teams of 2–4 students must be sponsored by a **qualified science teacher or mentor**. Team members do not have to be from the same school. For information how to form a team, see website below.

Website:

<http://www.dnabarcoding101.org/programs/ubp/>

Contact Information:

Project email: urbanbarcode@cshl.edu

URBAN BARCODE RESEARCH PROGRAM

Details:

The *Urban Barcode Research Program (UBRP)* is a science education initiative designed to engage high school students to study biodiversity in NYC using DNA technology. Students complete introductory workshops and then conduct independent, student-driven research projects using DNA barcoding under expert mentorship. The *UBRP* enables students to gain knowledge, confidence, and interest in science while studying the interaction between biodiversity and human activity.

WILLIAMS COLLEGE MATH CAMP

Details:

The Williams College Math Camp (WCMC) is a free, nine-day residential math camp for about 20 mathematically gifted high school students who have completed or are currently enrolled in Algebra 2 or its equivalent. Students will be exposed to several different areas of mathematics through colloquia and other activities, but the primary focus of the camp will be Number Theory & The Art of Mathematical Thinking. Students will learn to explore the theory of numbers by asking thoughtful questions, working out examples, looking for patterns, making conjectures, and finally, proving their results.

YW STEAAM PROGRAM

Details:

Our programs offer self-identified high school girls a challenging STEM experience, regardless of their prior experience in the field. Girls' will come together and learn from the best about STEAAM (Science, Technology, Engineering, Art, Activism, and Math), in a gender specific environment that will make the work relevant to their world. The exposure to professionals in the field will build their networks and inspire future possibilities.

We offer three STEAAM programs:

YW Geek Girls@: This weekly program includes hands-on workshops and training, networking with women experts and leaders, trips to technology hubs, labs, and more!

Maker Space: Come create in our new maker space! Use the 3D printer, recycled electronics, or traditional art supplies to build creative projects.

Intensives: These short term programs will meet for 3-5 weeks and will focus on topics such as sustainability and fashion, coding, and more!

THE NEW GROUP THEATER SCENE 1

Details:

The New Group, led by founding Artistic Director Scott Elliott and Executive Director Adam Bernstein, is an award-winning, artist-driven company with a commitment to developing and producing powerful, contemporary theater. While constantly evolving, we strive to maintain an ensemble approach to all our work and an articulated style of emotional immediacy in our acting and productions. In this way, we seek a theater that is adventurous, stimulating and most importantly "now", a true forum for the present culture. **scene1** is The New Group's innovative free theater education program serving NYC public high school students since 2006. Using a model that prioritizes ensemble building and character development, students learn advanced acting, playwriting and songwriting with seasoned professionals, including Master Classes with New Group artists.

PRINCETON SUMMER JOURNALISM PROGRAM

Details

The Princeton Summer Journalism Program welcomes 35-40 high school students from low-income backgrounds every summer to Princeton's campus for an intensive, 10-day seminar on journalism. The program's goal is to diversify college and professional newsrooms by encouraging outstanding students from low-income backgrounds to pursue careers in journalism. All expenses, including students' travel costs to and from Princeton, are paid for by the program.

SKIDMORE COLLEGE NEW YORK STATE SUMMER YOUNG WRITERS INSTITUTE

Details:

The NY State Young Writers Summer Institute is a one-week intensive writing program at Skidmore College near Albany. Participants receive instruction in poetry, fiction, and dramatic writing (screenwriting, playwriting, and dramatic monologue) and engage in the critical evaluation of each other's work. By bringing top high school student writers together to work extensively with professional writers, the Institute provides young artists with recognition, respect, opportunities for artistic development, and peer support.

Christine Merrill: 518-580-5593 or summeryoungwriters@skidmore.edu.

TEEN ARTSCONNECTION

Details:

Teen Arts Connection offers many programs to help make the arts affordable for young people. High 5 makes \$5 tickets available to hundreds of New York art events, including dance, music, theater, film, and museums. The Student Art program (SAP) is an ongoing exhibition program with 8 exhibition opportunities a year for NYC public school students in 6th-12th grade. Teens Curate Teens (TCT) brings together high school artists and curators to produce an art exhibition each spring. Teen Reviewers and Critics Program (TraC) is a free 10-week afterschool program for high school students to explore the arts in NYC. The Journal or Art and Reviews (JAR) is a blog which features creative content by young people participating in ArtsConnection's teen programs. More information on all programs available on the website.

THE WOOSTER GROUP SUMMER INSTITUTE

Details:

The Summer Institute is a free, three-week performance workshop for teenagers in the public school system, founded by Wooster Group member Kate Valk and Ariana Smart Truman. The workshop is organized around a selected text and sessions with guest artists in many aspects of performance (ranging from movement to writing to voice training to video techniques). Students are accepted as young as twelve, and are invited back every summer until they graduate from high school, at which time they may return as interns, and ultimately instructors or guest artists. The program culminates in three public performances for supporters, friends, and family.
