Opens in February

Contact Information:

Email: bcap@bklynlibrary.org or call (718) 230-2753

BROOKLYN MUSEUM APPRENTICE PROGRAM

Details:

In this paid internship, learn about art and art history with other teens from around New York City. As a Museum Apprentice, you'll go behind the scenes at the Brooklyn Museum throughout the school year to develop your own Museum tours and teach camp groups over the summer.

Website:

<https://www.brooklynmuseum.org/education/teens/museum-apprentices/>

Deadline:

2016-2017 applications closed. Check website for 2017-2018 internship opportunities.

THE CHILDREN'S MUSEUM OF THE ARTS

Details:

The Children's Museum of the Arts strives to introduce and give children and their communities the opportunity to indulge in the world of art by providing hands-on activities and experiences with artists. As interns at CMA, students will give support to various programs at the museum and learn from professional teaching artists at the same time.

Eligibility:

All applicants must be prepared to attend a mandatory orientation and commit to a full internship term and a minimum of three hours a week.

Website:

<http://cmany.org/aboutus/opportunities/teenopportunities/>

Contact:

Michael at mcady@cmany.org

Deadline:

Applications are accepted on a rolling basis.

CITYARTS INTERNSHIPS

Details

MA-YI THEATER COMPANY

Details

Founded in 1989, Ma-Yi Theater Company is a Drama Desk and Obie Award-winning not-for-profit 501(c)(3) organization whose primary mission is to develop and produce new and innovative plays by Asian American writers. Since its founding, Ma-Yi has distinguished itself as one of the country's leading incubators of new work shaping the national discourse about what it means to be Asian American today. Ma-Yi is often looking for volunteers to assist in different aspects of production and administration. During each mainstage show, we enlist the services of volunteer ushers – a great way to see a Ma-Yi show for free! We also hire interns on an as-needed basis year-round.

NOGUCHI MUSEUM TEEN ADVISORY BOARD

Details:

The Noguchi Museum's Teen Advisory Board (TAB) is a free after-school program for high school students. Each year, TAB members advise the museum on how to better serve teen audiences and plan events that promote the museum to their peers. This year, TAB members will become immersed in Isamu Noguchi's life and work through tours, activities, and behind the scenes experiences with museum operations and staff. Participants will also have the opportunity to visit other museums and engage with museum teen programs around the city. TAB members may receive community service and/or internship credit for their participation in this program.

Website:

<http://www.noguchi.org/programs/education/teens>

Application:

At above link.

Contact Information:

Email education@noguchi.org or call (718) 204-7088, extension 203 for more information.

Deadline:

Typically in late October.

WRITOPIA LAB

Details:

All Writopia workshops are multi-genre, which means students can focus on fiction, playwriting, poetry, memoir, screenwriting, etc. Over the course of the semester, the instructor and a group of 6-8 age-based peers will help develop and complete writing projects. Summer camp also offered. Internships available for high school students who have taken workshops.

INVEST IN SUCCESS

Details:

The “Invest in Success” program is the cornerstone of DREAM (Developing Responsible Economically Advanced Model Citizens). This three-year, comprehensive institute targets students in their sophomore year of high school and strategically develops students’ knowledge of both personal finance and investing, concluding at the end of the students’ senior year of high school. The breadth of topics covered and the difficulty of course material gradually increases per year, ranging from first-year topics, such as “The Basics of Budgeting” to third-year topics, like “Valuing Investments in the Private Market”. This experience better equips students to handle critical financial decisions as they enter adulthood, such as navigating the process of financing higher education expenses, investing, saving, and managing debt. The program has four main components: \$tart \$mart (an introduction to savings and individual brokerage accounts), Finance Academy, mentorship, community service.

Duration:

From September to June, sophomore to senior year of high school

Eligibility:

Students must be a first semester high school sophomore and resident of New York City. Students must also identify themselves as Asian, Black, Hispanic, Native American, or a combination of the aforementioned classifications. The complete list of eligibility requirements can be found in the link below.

<http://dream-usa.org/invest-in-success-selection/>

Website:

<http://dream-usa.org/invest-in-success/>

Deadline:

Approximately late October.

MUNICIPAL CREDIT UNION INTERNSHIPS

Details:

MCU offers two programs for high school students. COLUMBIA COLLEGE DOUBLE DISCOVERY CENTER

Details:

DDC accepts students who live and/or attend schools in Manhattan, and are low-income and/or first-generation college bound. *The Upward Bound Program* is full academic immersion and an extensive time commitment. The program accepts students in the 9th and 10th grades. UB students are on campus two days per week for tutorial assistance and on Saturday mornings for three academic enrichment courses. During the summer, students can apply for entry into the UB Summer Academy where they live on campus and take classes for four weeks. Talent Search has a more flexible schedule and is suggested for those who are heavily involved in extra curricular activities or outside programs. Tutorial sessions are optional and there are workshops for each academic class. In the summer, the Center offers opportunities for students to secure summer internships, and enroll in study abroad and outside programs.

CONCOURSE HOUSE

Details:

Concourse House, Home for Women and their Children, works to eliminate homelessness by providing families with safe, stable, transitional housing. Concourse House works with the families to break the cycle of poverty by providing a variety of social services and interactive programs that promote growth and independence. Many high school and college students from the local area as well as other boroughs have completed an internship with Concourse House. Interns work in our After-school Program, Day Care program as well as our Family Services Department. We will work with your school to make sure all requirements are met and work with you to ensure a successful placement.

DOROT SUMMER TEEN INTERNSHIP PROGRAM

Details:

DOROT is a nonprofit organization whose goal is to alleviate social isolation and provide concrete services to older adults. Youth volunteers are a crucial part of our programs. They help to bridge the generation gap and alleviate social isolation for our seniors. DOROT's Summer Teen Internship Program offers two four-week sessions for rising sophomores through rising seniors. Through a competitive process, we choose up to 18 interns for each session. Summer interns are expected to volunteer with DOROT during the academic high school year.

MANHATTAN BOROUGH PRESIDENT GALE BREWER INTERNSHIP

Details

"As a New York City public official for almost forty years, I've worked with thousands of bright and energetic college and high school students eager to learn about civic leadership and how they can work to improve their communities. These young people have greatly impressed me with their intelligence and resourcefulness, and I've seen many budding public policy scholars go on to distinguished careers—some working for the public good right here in the city. Interns constitute an important part of my staff. During my tenure on the City Council, their participation helped us save lives, provide free housing clinics, create an age-friendly neighborhood, give seniors farm-fresh affordable produce, organize tenant associations in every New York City Housing Authority development, and make streets safer and greener in the Upper West Side."

Details:

The Science and Engineering Apprenticeship Program (SEAP) provides an opportunity for students to participate in research at a Department of Navy (DoN) laboratory during the summer. The goals of SEAP are to encourage participating students to pursue science and engineering careers, to further their education via mentoring by laboratory personnel and their participation in research, and to make them aware of DoN research and technology efforts, which can lead to employment within the DoN. Closest participating labs are in NJ, CT, and PA.

NYC SCHOOL CONSTRUCTION AUTHORITY SUMMER INTERNSHIP PROGRAM

Details:

The SCA's Summer Internship Program ("SIP") recruits talented NYC public high school juniors/seniors for a six-week internship with various SCA business partners, organizations and associations. The internship is designed to expose students to the sponsor firm's core business operations. Students work alongside professionals on a variety of administrative and more advanced hands on assignments. Students spend four days a week working at their sponsor firm and the remaining day of the week attending career development workshops and activities designed to help them succeed academically, personally and professionally.

Website:

<http://www.nycsca.org/Careers/Internship-Program#Summer-Internship-Program-78>

Application:

Email scainternships@nycsca.org for application materials.

Deadline:

Typically in early March.

NYC STEAM SUMMER INTERNSHIP

Details:

The High School Summer Internship Program at the NYC Department of Design and Construction is designed for students interested in pursuing careers in architecture, engineering, building trades, public administration, business administration or information technology. The program is structured to enable students to gain exposure to the many careers in the built environment and to learn about what it takes to build New York City.

Website:

<http://www1.nyc.gov/site/ddc/steam/hs-summer-internship.page>

Application: due in April

STUDENT CONSERVATION ASSOCIATION'S NATIONAL CONSERVATION CREW

Details:

Public lands across the United States are in need of a little TLC. SCA's National Crews offer you a chance to visit places you've never seen before, camping with your crew members in the field to enjoy nature at its best. You'll be building trails, conserving vital habitats, and protecting natural resources for future generations. National Crews will also set you on the path to other SCA opportunities, like Trail Corps and Conservation Internships. Serve 2 to 5 weeks in the summer. Open to ages 15+

Website:

<http://www.thesca.org/serve/national-crews>

Application: due beginning of March

<http://www.thesca.org/serve/youth/how-to-apply>

Contact Information:

Email SCA at recruiting@thesca.org

SUNY ONEONTA BIOLOGICAL FIELD STATION INTERNSHIPS

Details:

Research at the Biological Field Station (BFS) is sponsored by local community foundations and individuals, various governmental and private agencies, and the BFS itself. Most of the work is used in decision making regarding the management and protection of our local natural resources. Research teams made up of faculty, staff, selected graduate and undergraduate college students, and high school students focus on specific areas of concern such as water quality monitoring, fisheries management, biological control studies and surveys. High School internships last 9 weeks and also run 5 days per week, 8AM to 4PM. All students participating in an internship are responsible for organizing and executing a project under the guidance of BFS faculty and staff.

Website:

<http://www.oneonta.edu/academics/biofld/internships.asp>

Contact Information:

607-547-8778

TRISKELES ENVIRONMENTAL INTERNSHIPS

Details:

Non-profit organization Triskeles is offering environmental related internships in sustainability and environmental issues.

Website:

<http://triskelesprograms.org/>

Additional Information:

Contact Guidance Counselor Mr. Harvey Blumm at hblumm@schools.nyc.gov for more information.

US DEPARTMENT OF AGRICULTURE INTERNSHIP

WAVE HILL FOREST PROJECT SUMMER COLLABORATIVE

Details:

Wave Hill is currently recruiting students interested in the environment to participate in their Forest Project Summer Collaborative Summer Internship, which is a two-year six-week program. As participants in the program, interns will dive into restoring woodland areas at Wave Hill, learn about plant science, or GIS mapping at CUNY Lehman College, all the while earning money and college credits for doing work in the fields and in the classroom.

Duration:

From June 30, 2016 to August 19, 2016, Mondays through Fridays, from 9 AM to 4 PM.

Eligibility:

Program open to sophomores, juniors, and seniors interested in the sciences.

Website:

<https://www.wavehill.org/education/forest-project/>

Contact Information:

Email Barry Kogan at barryk@wavehill.org or call at (718) 549-3200, extension 223.

WAVE HILL WOODLAND ECOLOGY RESEARCH MENTORSHIP (WERM)

Details:

Wave Hill's **Woodland Ecology Research Mentorship** is a paid 14-month program offering motivated New York City high school students a unique opportunity to gain in-depth knowledge of the principles of ecology, focusing particularly on ecological restoration in New York City, and to participate in important field research with working scientists.

Eligibility:

Program open to sophomores, juniors, and seniors interested in the sciences.

Website:

<https://www.wavehill.org/education/woodland-ecology-research-mentorship/>

Contact Information:

Email Barry Kogan at barryk@wavehill.org or call at (718) 549-3200, x223.

HEALTHCARE

BRONX WESTCHESTER AREA HEALTH EDUCATION CENTER INTERNSHIP

Details:

The Bronx-Westchester Area Health Education Center (BW AHEC) Summer Health Internship Program (SHIP) provides a six week summer placement opportunity for students entering their junior and senior years of high school. Students are exposed to a variety of careers in the health fields as well as to health issues affecting their communities.

NOGUCHI MUSEUM TEEN ADVISORY BOARD

Details:

The Noguchi Museum's Teen Advisory Board (TAB) is a free after-school program for high school students. Each year, TAB members advise the museum on how to better serve teen audiences and plan events that promote the museum to their peers. This year, TAB members will become immersed in Isamu Noguchi's life and work through tours, activities, and behind the scenes experiences with museum operations and staff. Participants will also have the opportunity to visit other museums and engage with museum teen programs around the city. TAB members may receive community service and/or internship credit for their participation in this program.

Website:

<http://www.noguchi.org/programs/education/teens>

Application:

At above link.

Contact Information:

Email education@noguchi.org or call (718) 204-7088, extension 203 for more information.

Deadline:

Typically in late October.

RUBIN MUSEUM OF ART RMA TEENS

Details:

RMA Teens is a free after-school program for high school students with a strong interest in art or careers in the arts. Participants get a behind the scenes look at how a museum operates, explore career paths in the arts, gain valuable public speaking and leadership skills, and gain access to one of the best collections of Himalayan art in the world.

Location:

Rubin Museum of Art (150 W 17th Street, New York, NY 10011)

SMITHSONIAN LATINO CENTER YOUNG AMBASSADORS PROGRAM

Details: The Smithsonian Latino Center's Young Ambassadors Program (YAP) is a nationally recognized program for graduating high school seniors that fosters the next generation of Latino leaders in the arts, sciences, and humanities via the Smithsonian Institution and its resources. The program empowers young Latinos to become community leaders and lifelong learners. Students come to Washington for a once-in-a-lifetime learning opportunity at the Smithsonian, where they participate in workshops with Latino scholars and leaders, such as filmmakers, journalists, curators, artists, scientists, musicians, poets and CEOs. After their time in Washington students complete a four-week internship at a partner cultural or science museum in one of 17 cities across the U.S. and Puerto Rico.

Website:

<http://latino.si.edu/Education/YAP>

RESEARCH/STEM

ALLEY POND ENVIRONMENTAL CENTER HIGH SCHOOL FIELD BIOLOGY INTERNSHIP

Details:

The High School Field Biology Internship introduces students to environmental field studies. Students learn how to conduct practical field research through examination of water, soil, and air quality, and biodiversity. Students will gain confidence in scientific inquiry and learn the basics of research techniques and species identification.

Eligibility:

The program is open to sophomores and juniors, and there is an independent internship for seniors.

NYU C21 STEP SCHOLARS

Details:

The C21 STEP Scholars is sponsored by and financed through the Science & Technology Entry Program (STEP) grant from the New York State Education Department's Office of Postsecondary Access, Support and Success. Many students aspiring to attend college face a reality of few options and fewer opportunities due to lack of economic and educational resources. STEP seeks to confront and address this reality by recruiting a compositionally diverse cohort, designing interdisciplinary STEM (Science, Technology, Engineering and Math) coursework, providing SAT prep and financial aid workshops and academic, personal, career, and college mentorship programming with current medical students, faculty, and researchers at the NYU School of Medicine.

PERRY INITIATIVE OUTREACH PROGRAM

Details:

The Perry Initiative is committed to inspiring young women to be leaders in the fields of Orthopedic Surgery and Engineering. The Perry Outreach Program is a free Saturday program for self-identified female high school students. Using real tools and bone models, girls participate in creative problem-solving and learn the orthopedic implant design process. Participants will rotate through six mock surgical scenarios and attend three lectures on career decisions given by local women orthopedic surgeons and engineers. Local medical and engineering students act as hands-on activity instructors. The next New York City presentation is January 21, 2017 at NYU.

THE RIVER PROJECT'S MARINE BIOLOGY INTERNSHIP PROJECT

Details:

The River Project's Marine Biology Internship Project, or MBIP, is an environmental science research project that allows students to conduct independent, guided research on urban wildlife, habitat, and/or local water quality control. This program is great for any high school student interested in scientific research and/or contemplating entry into the Intel Science Talent Search or the Siemens competition, as interns in the program will receive guidance and mentorship from the River Project staff and other professional researchers that are experts in their respective fields.

Eligibility:

The River Project is currently accepting interns on a case-by-case basis. Admission will be dependent on the specific interests of the student.

Website:

http://www.riverprojectnyc.org/education_mbip.php

Application:

Contact Nina Hitchings at nina@riverproject.org or at (212) 233-3030.

ROBOFUN AT VISION EDUCATION & MEDIA

Details:

Vision Education & Media are looking for responsible, motivated, and enthusiastic interns for their RoboFun classes this summer. Interns will get hands-on work experience and interactions with kids interested in Video Game Design and Technology.

Website:

<http://robofun.org/>

Contact Information:

Email robofun@vemny.org or call (212) 245-0444 for more information.

THE ROCKEFELLER UNIVERSITY SUMMER SCIENCE RESEARCH PROGRAM

Details:

The Summer Science Research Program is for students age 16+ interested in careers in medicine, science, clinical research, teaching, mathematics, and engineering. The program runs for seven weeks from June to August. Apprenticed to a mentor, students will learn the content, process, culture and ethos of modern scientific research through total immersion in the process of scientific inquiry. The program will provide you with a practical, laboratory experience working with your mentor to gain insight into how and why scientific research is done.

Website:

http://www.rockefeller.edu/outreach/summer_science

Application: The deadline is early January.

ROSWELL PARK CANCER INSTITUTE INTERNSHIP

Details

This internship gives students a first-hand research experience by working full-time on an independent cancer-related research project. The research experience is set within the collaborative and mentored environment of a world-renowned cancer researcher's laboratory where interns work alongside a research staff of graduate students, post-doctoral scholars and technicians. The core research experience is supported by educational seminars and career development activities. These include a weekly course, invited speaker seminars and field trips to life sciences companies.

SUNY ONEONTA BIOLOGICAL FIELD STATION INTERNSHIPS

Details:

Research at the Biological Field Station (BFS) is sponsored by local community foundations and individuals, various governmental and private agencies, and the BFS itself. Most of the work is used in decision making regarding the management and protection of our local natural resources. Research teams made up of faculty, staff, selected graduate and undergraduate college students, and high school students focus on specific areas of concern such as water quality monitoring, fisheries management, biological control studies and surveys. High School internships last 9 weeks and also run 5 days per week, 8AM to 4PM. All students participating in an internship are responsible for organizing and executing a project under the guidance of BFS faculty and staff.
